

A detailed technical drawing of a mechanical device, likely a pump or a specialized transport mechanism. The drawing includes a large circular component with internal structures and a smaller, more complex assembly to the right. Various parts are labeled with numbers 1 through 20. The drawing uses solid lines for visible parts and dashed lines for hidden internal features. Arrows indicate the direction of movement or flow. The overall layout is enclosed in a rectangular frame.

Technical drawing of a mechanical assembly in cross-section. The drawing shows a vertical shaft (22) passing through a housing (3) and a base (G). The shaft is supported by bearings (13, 25) and has a coupling (14) connected to a horizontal shaft (15). A piston (27) is shown in a cylinder (23) with a cross-hatched area (12) above it. A vertical rod (1) is also shown.
